Scoring docs directly from email

Open a mail and attach a PDF or MS Word doc to score.

Send that mail to:
analyze@readability-inbox.visiblethread.com

Note: For users using VT Writer on-premise, you will send to a different email address. Contact your administrator for that email address.

The system will send you back a return mail (normally takes about 30 seconds). That mail will contain summary stats, and an excel report attached. If you sent a Word doc for analysis, you'll get a 2nd attachment, an annotated doc, ready for editing.
